SUMMARY

Software Engineer with 8+ years of experience building and deploying web, backend, and mobile applications. Experienced in leading engineering teams, designing systems, and shipping products across the stack.

SKILLS

JavaScript · TypeScript · React.js · React Native · Node.js · Python · Amazon EC2 · MongoDB · AWS · Terraform

EXPERIENCE

Rippey AI

Engineering Manager

August 2026 – Present

- Leading engineering for Rippey.ai and growing the team.

Tech stack: Node.js, JavaScript, Python, MongoDB

Software Engineering Team Lead

May 2024 – August 2026

- Led a team of 11 engineers in the design, development, and deployment of Rippey.ai.
- Coordinated with product, QA, and other departments to align engineering with business goals.
- Oversaw code reviews, architectural designs, and system integrations to keep quality high.
- Mentored junior engineers and managed timelines, resources, and delivery.

Tech stack: Node.js, JavaScript, Python, MongoDB

Senior Software Engineer

November 2023 – May 2024

- Implemented RabbitMQ for inter-service communication, improving stability and scalability.
- Designed and implemented Attribute-Based Access Control (ABAC) to replace single-credential login.

Tech stack: Node.js, JavaScript, Python, MongoDB

Logpoint

Senior Software Engineer

January 2023 – November 2023

- Migrated on-premise Logpoint to the cloud using EC2, Lambda, S3, and Terraform.
- Migrated legacy UI to React components and mentored new engineers.
- Worked closely with offshore teams across the migration.

Tech stack: React.js, Node.js, Python, Java, MongoDB, AWS, Terraform

Software Engineer

March 2021 – January 2023

- Built a broken-link checker for docs.logpoint.com that eliminated a major docs QA workload.
- Designed and implemented the SOAR playbook explorer, working with teams in Nepal, Denmark, and Israel.

- Provided full-stack support for React, Hapi, Node.js, and MongoDB systems, including coding standards and cloud deployment.
- Worked on the documentation portal (docs.logpoint.com) and community portal (community.logpoint.com).

Tech stack: Python, Flask, Node.js, React/Redux, MongoDB, Elasticsearch, AWS, Docker, Jenkins

Cyphertree Technologies Pvt Ltd

Software Engineer

August 2020 – April 2022

- Memetoons: owned development and deployment of Android, iOS, admin dashboard, client site, and Node.js/Flask backends, including NFT conversion with blockchain.
- Visualize: planned, built, and shipped Android and iOS apps with in-app purchases.

Tech stack: React, React Native, Android, iOS, Firebase, Flask, Node.js, CosmosDB, Solidity

Stonegrid Technology Solutions Private Limited

Software Engineer

January 2018 – August 2020

- Full-stack development with React, Node.js, Dropwizard, and PostgreSQL.
- Maintained coding standards (SonarQube, ESLint) and set up cloud deployment with CircleCI.
- Built and shipped Android and iOS apps to the Play Store and App Store.

Tech stack: React, Spring Boot, Node.js, PostgreSQL, Webpack, AWS S3, Cypress, Jest, Android, iOS

Adinav Labs Private Limited

Full Stack Developer

November 2019 – July 2020

- Built the UI for kino-health.com, plus email (Nodemailer) and messaging (MSG91) integrations.
- Developed and shipped Android and iOS apps, along with the backend for the apps, admin portal, and web app.
- Published an npm package with 1,000+ downloads.

EDUCATION

Master of Business Administration — MBA, Accounting and Finance

January 2021 – December 2022

Mizoram University

Bachelor of Technology, Electronics and Communications Engineering

July 2014 – July 2018

Mizoram University

LICENSES & CERTIFICATIONS

- Triplebyte Certified Front End Engineer — Triplebyte
- Problem Solving — HackerRank
- JavaScript — HackerRank
- Python — HackerRank
- Software Architecture & Technology of Large-Scale Systems — Udemy
